All Aboard the Orange Blossom Express!

Above: Bike Florida Ride Director Becky Afonso finally gets some rest at Sun ‘n Fun aviation complex after a 7-day, 507-mile, self-contained route recon ride for the upcoming Spring Tour. The complex is the start and endpoint of the 7-Day Orange Blossom Express. Becky rides each route herself to ensure safety and enjoyment for participants during the actual event.

Florida Technology Transfer Quarterly — Established 1984

Florida Technology Transfer Quarterly, published by the Florida Transportation Technology Transfer (T2) Center as part of the Transportation Research Center (TRC) in the Engineering School of Sustainable Infrastructure and Environment (ESSIE) at the University of Florida, facilitates information exchange relating to roads, bridges, general surface transportation, and safety.

The T2 Center provides training, technical assistance, and technology transfer services through the following partnerships and programs:

- Federal Highway Administration (FHWA)
- Florida Department of Transportation (FDOT)
- Local Technical Assistance Program (LTAP)
- Center for Transportation Training (CTT)
- Highways for LIFE (HfL) Demonstration Showcases
- Pedestrian and Bicycling Safety Resource Center (SRC)
- Florida Occupant Protection Resource Center (OPRC)

Interested parties may receive the electronic publication and annual printed portfolio by sending name, agency, mailing address, phone, and email to t2@ce.ufl.edu. Newsletter content and accuracy is the exclusive responsibility of the Florida T2 Center.
FACERS Annual Awards

Each year, the Florida Association of County Engineers and Road Superintendents (FACERS) honors a Public Works Employee, Small Agency or Rural* Engineer, Large Agency or Urban* Engineer, a Team Project of the Year, and Local Agency/State Agency Collaboration for projects completed in the previous year. Awards are open to all individuals in public works, transportation, and engineering in Florida’s counties and cities.

Nominees and nominators are not required to be FACERS members. The Awards Committee sends a letter to all nominees informing them of their nomination. Winners are recognized statewide at the Annual FACERS Conference and are featured in the Technology Transfer Quarterly newsletter. The Engineer award recipients may also qualify for national recognition.

*Small Agency/Rural is defined as having a population less than 100,000. Large Agency/Urban is defined as having a population of 100,000 or more.

How do I nominate someone?

If you have a nominee in mind for an award, enter them and brag! Let us know what was done to deserve recognition. Make sure the effort was completed in 2012 and then visit facers.org/award-program-winners/award-winners to submit your nomination.

What information do I need?

You will need to have the nominee’s name, title, county/city, email, phone, and address. In addition you will need to have the name of the project, the project completion date, and a description of the project that includes the following information:

- Outline of need/timeliness
- Innovations used
- Impact on the agency budget
- Impact on the community
- Leadership needed to successfully complete the project

Please visit facers.org/award-program-winners/award-winners for more information about the awards and to view past winners. Email questions@facers.org with any questions.

The deadline for applications is Friday, April 26, 2013

Get Ready for Work Zone Awareness Week — April 15–19

Each year in April, National Work Zone Awareness Week (NWZAW) is held to bring national attention to motorist and worker safety and mobility issues in work zones. Since 1999, FHWA has worked with the American Association of State Highway and Transportation Officials (AASHTO) and the American Traffic Safety Services Association (ATSSA) to coordinate and sponsor the event. Over the years, other transportation partners have joined the effort to support NWZAW. In addition to a national event conducted each year, many states host their own NWZAW events.

Visit www.ops.fhwa.dot.gov/wz to read more and find out what your agency can do to spread awareness and be aware.
From Spook Hill to Thrill Hill, Bike Florida’s 2013 Orange Blossom Express spring tour will delight and excite cyclists looking to experience a part of Florida rich in history. The route follows Central Florida’s iconic orange groves and is peppered with elevation changes not typically associated with the Sunshine State.

Participants can enjoy the 2-Day Weekend Tour, or choose to stay a little longer and pedal a little more on the 7-Day Tour. The 2-Day Tour is designed for cyclists seeking a weekend getaway biking scenic back roads and exploring Florida’s newest Bronze-ranked League of American Bicyclists Bicycle Friendly Community. This mini-ride also serves as a warm-up to the fun and adventure awaiting cyclists who choose the 7-Day Tour, which moves from Lakeland to a two-night stay in Clermont, and then it’s on to Lake Wales for two nights before returning to Lakeland. Both tours will revel in the opening weekend at the Sun n’ Fun aviation complex in Lakeland.

The last day of the 7-Day Tour will feature an evening at Bok Tower Gardens, where Orange Blossom Express participants will have free garden access after 5pm to enjoy a sunset carillon concert. One hundred flambeaux will illuminate the garden pathways, and the Singing Tower will glow from within during this special moonlit evening. The tour ends at Sun n’ Fun on Friday with a citrus-based treat and a commemorative gift announcing Bike Florida’s 20th Anniversary celebration for 2014.

Visit www.bikeflorida.org for more information about this exciting opportunity for fun and adventure!

— Article by Becky Afonso, Bike Florida Ride Director
FDOT “Specs on the Web”
A new online tool to help Local Agencies compile specifications for contract documents

The Florida Department of Transportation (FDOT) now has a new resource available to Local Agencies for compiling specifications for contract documents.

“Specs on the Web” is an online application used by FDOT staff and consultants to assemble the specifications for a contract. The application has been enhanced to provide easy access for Local Agencies to download specifications in Microsoft Word format. The files may be downloaded to a local computer and used to develop the Local Agency contract specification documents.

Specification files include:
• “The Big Four” — Earthwork, asphalt, concrete, and landscape specifications approved for use on Federally funded off-system projects
• FDOT Archive Specifications — Asphalt, base, earthwork, and concrete specifications no longer in use on the State Highway System
• Supplemental Specifications — Implemented changes to the Standard Specifications
• 2013 Standard Specifications for Road and Bridge Construction

To access the application, visit the FDOT Specifications Office website (www.dot.state.fl.us/specificationsoffice) and click on the “Specs on the Web” link located in the icon bar at the top of the page (see illustration above). There is no login required; just click on the Local Agency Specs link (as shown below).

April is National Distracted Driving Awareness Month
See Page 12 for more information
Tentative Agenda

Monday, April 22

12:00 pm – 6:00 pm | Branch Golf Tournament

Tuesday, April 23

8:30 am – 5:00 pm | Registration Open
9:00 am – 5:00 pm | Equipment Rodeo Set-up
9:00 am – 5:00 pm | Exhibit Hall Set-up (Decorator)
9:00 am – 10:00 am | Technical Sessions 1 / 4 Tracks
10:15 am – 12:15 pm | Technical Sessions 2 / 4 Tracks
12:30 pm – 2:15 pm | Opening Session Luncheon (Keynote Speaker)
2:30 pm – 3:30 pm | Technical Sessions 3 / 4 Tracks
3:45 pm – 4:45 pm | Executive Committee Meeting
5:30 pm – 7:00 pm | President’s Reception

Wednesday, April 24

7:30 am – 5:00 pm | Registration Open
8:00 am – 12:00 pm | Exhibitor Move-in (bulk space only)
9:00 am – 10:00 am | General Session - Casey Jones
10:15 am – 11:15 am | Technical Session 6 / 4 Tracks
9:00 am – 3:30 pm | Rodeo (Lunch & Awards)
9:00 am – 3:00 pm | Equipment Rodeo
11:30 am – 1:00 pm | Lunch on own (or Rodeo Lunch ticket)
1:00 pm – 6:00 pm | Exhibitor Move-in (10’ x 10’ booth space)
1:00 pm – 2:00 pm | Technical Session 7 / 4 Tracks
2:15 pm – 3:15 pm | Technical Session 8 / 4 Tracks
3:30 pm – 4:30 pm | Technical Session 9 / 4 Tracks
6:00 pm – 8:00 pm | Celebrity Night @ Florida Theatre (food, drinks & entertainment)

Thursday, April 25

7:30 am – 4:00 pm | Registration Open
8:00 am – 10:00 am | Client Connection Roundtables (Vendors with PW Directors)
9:00 am – 4:00 pm | Exhibitor Show Open
10:30 am – 11:00 am | Exhibitor Showcase Demos 1 & 2
11:30 am – 12:00 pm | Exhibitor Showcase Demos 3 & 4
12:30 pm – 1:30 pm | Lunch with Exhibitors

Friday, April 26

8:30 am – 12:00 pm | Registration Open
9:00 am – 11:00 am | Branch Training
10:00 am – 11:00 am | Technical Session 10 / 3 Tracks
10:30 pm – 11:15 am | Scholarship Recipient Networking
11:30 am – 2:00 pm | Awards / Scholarship Luncheon

Technical Session Tracks: Leadership, Transportation, Water Resources, and Other

Tuesday:
- A Singular Sensation: Lessons from Gainesville’s Depot Trail Pedestrian Overpass
- Marriage of Design-Build & Trenchless Techs for a Major 6,700’ Crossing of St. Johns River
- Working with Generation X and Y: How to lead the next generation in Public Works
- Storm Pipe Post-Installation Inspecting: Am I Inspecting or Neglecting?
- Melbourne Street Bridge Replacement — Partnership Bridging a Community
- Continuous Simulation Hydrologic Modeling to Support Landfill Design and Permitting
- Optimizing Maintenance and Operations Using Internal and External Resources
- Perry Harvey Park — Jazzing Up Public Facilities
- Sustainable Pavements — Green Thinking for Black Roads
- Advances in Riprap Technology
- Using Technology and Best Business Practices to Make the Best Use of Resources and Save Public Dollars
- Award Winning Management of Public Trees
- Signal Retiming Improvements in St. Johns County
- Water Reuse — I Can, You Can, We Can
- Addressing Pavement Asset Management
- Damage Prevention and Safety — The 5 Steps to Safer Digging: Sunshine 811
- Pavement Management and Reconstruction — Critical Quality Control
- Remediation of Chlorinated Solvents in Groundwater (in Jacksonville, Florida)
- Bottom Line Leadership
- Traffic Signal Mast Arm Inspections (TSMAs)

Wednesday:
- Experience a Florida Scenic Highway
- Palm Beach Par 3 Golf Course Renovation: The Green Goes Far Beyond the Fairways
- Mobile Asset Collection and Asset Management: An Albuquerque Street Sign Inventory Case Study

Continued on Page 7...
Wednesday (continued from Page 6):

- Bioremediation of a High-Concentration Chlorinated Solvents Mixture with Groundwater Circulation
- MUTCD Sign Retroreflectivity Made Easy
- Siesta Key Beach: Low Impact Development (LID) Design Approach
- Connect with Your Community by Advocating Public Works
- Making Your Solid Waste Collection Program More Responsive to Changing Economics
- Full Depth Reclamation in Florida: A Contractors Update
- Horizontal Directional Drilling — Not Every Bore is Boring
- Span of Control Can Impact Public Works Efficiency
- Truth or Consequences – Sustainability for the Public Works Professional
- Special Micro-surfacing Applications

New at the T2 Media Center

Below is a sample of new items added to our Media Center collection since our last newsletter. To better serve our clients, we have begun compiling a list of links to publications, when available, which allow for quicker access to the publication. Visit t2ctt.ce.ufl.edu/T2_Media_Center.asp to view all new listings.

As always, any non-copyrighted publication can be printed and checked out to you upon request. If you find a document listed here or online that your organization would like to see in print, just email mediacenter@ce.ufl.edu with the name of and link to the document, or contact our Media Center Coordinator at 352.273.1695, and we will print a copy for you to check out of our Media Center.

- An Agency Guide on Overcoming Unique Challenges to Localized Congestion Reduction Projects
- Advanced Methods for Mobile Retroreflectivity Measurement on Pavement Marking
- Cost-Effective and Sustainable Road Slope Stabilization and Erosion Control
- Performance of Concrete Pavements with Longitudinal Tining, Transverse Tining, and Carpet Drag Finish
- Developing, Enhancing, and Sustaining Tribal Transit Services: A Guidebook
- 2011 Urban Congestion Trends: Improving Travel Reliability with Operations
- Bicyclists and Other Cyclists
- Bicycle Road Safety Audit Guidelines and Prompt Lists
- Rural Public Transportation Strategies for Responding to the Livable and Sustainable Communities Initiative
- Advanced Methods for Mobile Retroreflectivity Measurement on Pavement Marking
- Development of a Sensing Methodology for Intelligent and Reliable Work-Zone Hazard Awareness
- Guide for Optimizing the Effectiveness and Efficiency of Roadway Lighting
- A Framework for Statewide Roadway Asset Management
- Improving the Properties of Reclaimed Asphalt Pavement for Roadway Base Application
- Implementation and Outcomes of Fare-Free Transit Systems
- Field Evaluation of a Restricted Crossing U-Turn Intersection
- Identifying Issues Related to Deployment of Automated Speed Enforcement
- Automated Roadway Pavement Marker Placement System
- Safety Evaluation of Transverse Rumble Strips on Approaches to Stop-Controlled Intersections in Rural Areas
- Review of Federal and State Practices to Expedite Completion of Highway Projects
- Relating Ride Quality and Structural Adequacy for Pavement Rehabilitation and Management Decisions
- Concrete Performance Using Low-Degradation Aggregates
- Preparation and Testing of Drilled Shafts with Self-Consolidating Concrete

May is National Youth Traffic Safety Month

www.noys.org
CAR SEAT REPORTS – CPS Instructors: Don’t forget to report on the car seats given to you to distribute. You are responsible for the seats given to techs through you as well. These numbers are used as important state statistics, and ensure that this program can continue to be funded in years to come.

Instructor reimbursements and technician certification class scholarships are available through September 16, 2013 — check the website or our Facebook page for more information.

Safe Ride News (SRN) has released the 2013 LATCH manual, which contains a tremendous amount of updates. Be sure your organization is using the most updated version! Visit saferidenews.com to download the updates or order a new manual. In order to save funds, CPS technicians and instructors can order a free copy of the 2011 edition of the manual from the ORPC website and supplement it with the SRN updates.

Below is a list of items currently available to order at no charge through the Promotional Items portion of the website. Visit the website to order, and be sure to check back for the Printable Resources page (under the Links section) which features a list of items you can download and print right from the site. The OPRC would love to hear from you about improvements that can be made to serve you better. Please email floridaoprc@ce.ufl.edu or call 352.273.1671 to provide your valued input.

FDOT Summary of Final Research Reports

Access the FDOT website www.dot.state.fl.us/research-center for these summaries and final reports. Go to the Research Center Topics drop-down menu in the lower left corner of the page and click on Completed Research. Summaries are listed by category.

**Construction**
- BD548-24 Evaluation of Safety and Operational Effectiveness of Dynamic Lane Merge System in Florida

**Environmental Management**
- BC353-03 Community Impact Assessment in Florida Transportation Projects: Case Studies
- BD568 Non-Invasive Assessment of Black Bear Movements and Abundance Relative to US 98 within the Aucilla Wildlife Management Area

**Geotechnical**
- BC354-54 Early Sinkhole Detection and Verification Using Airborne Laser and Infrared Technologies

**Maintenance**
- BDK80 977-13 Improved Inspection Techniques for Steel Prestressing/Post Tensioning Strands

**Materials**
- BDK75 977-43 Identification of Potential Concerns Associated with FDOT Use of Ammoniated Fly Ash
- BDK75 977-34 Use of Reclaimed Asphalt Pavement in Concrete Pavement Slabs

**Planning**
- BDK80 977-18 Before and After Safety Study of Roadways Where New Medians Have Been Added
- BDK77 977-14 Expanded Transportation Performance Measures to Supplement Level of Service (LOS) for Growth Management and Transportation Impact Analysis
- BDK77 977-19 LOSPLAN 2012: Updates for the HCM 2010
- BDK77 977-12 Nonlinear Road Pricing
- BDK75 977-54 Undesirable Roadside Vegetation

**Public Transit**
- BDK85 977-26 Assessing the Impact of Proposed Transit Investments and Public Policy Choices on Land Use Patterns (A Simulation Approach with UrbanSim)
- BDK85 977-35 Evaluation of Camera-Based Systems to Reduce Transit Bus Side Collisions - Phase 2

**Roadway Design**
- BDQ22 977-01 Evaluation of Driver Behavior to Hydroplaning in the State of Florida Using Driving Simulation
- BDK84 977-14 Hydroplaning on Multi Lane Facilities

**Structures**
- BDK80 977-06 Alternatives to Steel Grid Decks — Phase II
- BDK75 977-03 Experimental Validation of Bracing Recommendations for Long-Span Concrete Girders
- BDK82 977-03 The Repair of Damaged Bridge Girders with Carbon Fiber Reinforced Polymer “CFRP”
- BDK75 977-02 Vessel Crushing and Structural Collapse Relationships for Bridge Design

**Traffic Engineering and Operations**
- BDK78 977-11 Synthesis of Visibility Detection Systems
- BDK80 977-15 Best Practices in the Use of Hybrid Static-Dynamic Signs
- BDK80 977-14 Commercial Motor Vehicle Parking Trends at Rest Areas and Weigh Stations
- BDK77 977-17 Validity and Usability of a Safe Driving Behavior Measure for Older Adults

T2 CTT
Florida Transportation Technology Transfer Center
April is National Distracted Driving Awareness Month

One Text or Call could Wreck it All...Prevent Unnecessary Deaths with Simple Steps

Thousands die needlessly each year because people continue to use cell phones while driving. National Distracted Driving Awareness Month was introduced in 2010 as an effort to urge drivers of all ages to drive cell free.

This April, take the pledge to keep your attention on the road and urge your loved ones to do the same. If you are expecting an important call or text message, be sure to pull your vehicle to somewhere safe before checking your phone. Otherwise, it can wait!

For more information and to read about what you can do to spread this important message, visit the following sources:

**The Official US Government Website for Distracted Driving**
www.distraction.gov

**The National Safety Council’s Distracted Driving Page**
www.nsc.org/safety_road/Distracted_Driving

**The Faces of Distracted Driving Video Playlist**
www.distraction.gov/content/faces

**Advocates for Cell-free Driving**
