Height Survey Letter Requirements

A Height Survey Letter is required when the load to be moved measures over fifteen (15) feet. The letter should contain the following information:

1. Must be submitted on the hauler's company letterhead and faxed to (850) 410-5779.
2. Must state that the survey was completed by either a company escort car or an escort company.
3. Survey height must be at least six (6) inches above the height requested on the application. (Example: Actual height listed on application is 15’2”; letter and survey must be 15’8”.)
4. The route on the survey letter must match the route requested on the application.
5. Must be signed by the hauler.

If you have any questions concerning these requirements, please contact the Permits Office at (850) 410-5777.
